Leg Major Robinson of this city, was employed by the citizens of Pike county to prosecute the gang of burglars recently discovered and arrested about Petersburg in that county. They were tried last week at the setting of the Circuit Court.

Pork .- The Fort Wayne Times says: From the very best advices we are to infer that the price of pork will range this fall at contract prices, at about \$5 75 to \$6, net, per 100 lbs.

THE CAPTURED SLAVES .- It is reported that a steam Frigate has been ordered to Charleston, S. C., to take possession of the negroes now on board the captured slave brig Echo, and to return them to the African coast, whence they were stolen.

The Mayor of Memphis-the largest interior depot of cotton in America has sent his greetings over the Atlantic Telegraph to the Mayor of Manchester, the largest manufacturing city of the staple in Great Britain, upon the succes ful establishment of the Ocean Telegraph.

We are glad to learn that officer Carr of Cincinnati, who so nobly rescued a woman and two children, at a recent fire in that city, has so far recovered as to again enter upon his duties. He suffered intensely from the smoke which he had inhaled, that he would never fully recover.

Mr. Geo. S. Sonntag has opened a splendid hardware establishment immediately below the Branch Bank, on Main street. We call attention to his advertisement in to-day's paper. He devotes his whole time and attention to his business, has purchased his stock with great care, and pledges himself to compete with any similar establishment in the West.

THE REV. ELEAZER WILLIAMS .- The amiable and simple-hearted pretender to the was peaceful and his last words were, "Lord Jesus Christ receive my spirit." The mystery that has enveloped his history will probably never be solved.

The war department has just closed a contract with Snyder of Philadelphia, to furnish sixteen thousand felt hats for the army, at \$2 75 each. This is apparently a round price for felt hats, when furnished by the sixteen thousand; we can buy first class hats of that description, manufactured in this city by Messrs. Maconier & Vautier, for less money at retail. It has the oder of the Utah Army mule contracts about it.

The dedication of the Terre Haute Female College took place on Tuesday last. The pleasures of the occasion were somewhat marred by the severe rain storm. A large crowd was present notwithstanding the weather. Col. Thompson's address is pronounced by the Terre Haute Journal-a decided political opponent of the Colonel'sto have been "a most chaste and eloquent discourse; it was pre-eminently appropriate, and was listened to by a crowded audience with deep attention."

EXPORT OF BREADSTUFFS .- The New York Post of Wednesday last says :

It is a remarkable fact, worthy of note, that there is not at this time, a single bushel of grain on shipboard, for either Liverpool, Glasgow or London, nor a single barrel of flour, with the exception of a lot of 1,200 barrels on boardship to clear for London on Saturday; and so far as we have been able to learn, there is not a single bushel of grain in process of shipment to either port, nor a ing 500 barrels of lard), unless private engagements have been made this morning.

THE BANK OF AMERICA .- The Paducah Herald says a despatch was received there from Clarksville, that the Bank of America was paying specie for its notes. The editor

Alarming to Lawyers.

The Young Men's Christian Association of Pittsburg have adopted a policy which must be alarming to the lawyers of that city. At a recent meeting resolutions were adopted for the appointment of a committe of arbitration, before whom the members of the association, and all others who may wish to have their personal differences settled, in obedience to Christian rules, may bring their matters of controversy. A Pittsburg correspondent of a religious paper,

RIVER, RAILROAD OR CANAL. writing on the subject, says: The object of this movement is to open the way for a more general observation of Two young men, sons of Dr. Rittey, of the injunctions plainly given by Paul, in the sixth chapter of his first Epistle to the Corinthians. It has long been a disgrace to those calling themselves Christians, that, instead of an attempt amicably to settle their differences, as those who have renounced the world and become brethren in Christ, they "go to law" with each other, "and that before unbelievers."

Religion Among the Slaves.

It is a safe calculation to say that three for every one connected with the churches attend divine service on the Lord's Day. In the extreme Southern States there are more, for the owners and overseers require them. in many instances, to turn out to preaching generally. Then the four hundred and sixty-five thousand multiplied by three gives us one million three hundred and ninety-five thousand slaves in attendance on divine service in the South every Sabbath.

POWER OF THE CATHOLIC BISHOPS .- The Catholic Archbishop of St. Louis not only governs Missouri as Bishop, but has, as Metropolitan, authority over the following States and Territories, the Bishops of which are his suffragans: The States of Tennessee, Illinois, Wisconsin, Iowa, Minnesota, and the Territories of Kansas, Nebraska, New Mexico, and the Indian Territory. The Catholic Bishops of these States and Territories met in the Cathedral of that city, on last Sunday morning, the opening of their Second Provincial Council.

The State election in Vermont comes off to-day. The Republican majority is so strong in the State that the election is a mere form, and the event attracts but little attention any where. The following are the

AMERICAN STEAMSHIPS FOR CHINA .-- Two large steamships are building in New York, expressly for the China trade. As the open ing of the rivers of China may be expected to follow the late treaty of peace with England and France, giving the like advantages to other nations, we may expect to find American genius and enterprise active wherever a ship can make headway.

For preserving Proits, Vegetables, &c., in a per-fectly Fresh State. They require no Wax, Solder or Cement, seal instantly, and are more easily sealed and opened than any other article for the purpose ever invented. All kinds of Wax and Cement are equally

invented. All kinds of Wax and Coment are equally disagreeable and uncertain in sea ing.

In presenting these article to the public, the inventor challenges the World in an infallible, Sample, Easy, and Rayid progess of Hermetical Sealing.

All scientific and practical men who have examined them say they are without a fault.

The scaling is on an entirely new plan. The graket is pure tasteless gum, it lays perfectly still and cannot seringe or press out as pure gum gaskets would do on any other Can. This principle has stood the test for several years, and the best cordificate of their value is that those who have tried these articles will use no other.

They are warranted as represented, and in every case of failure the money will be refunded.
